

YOUR PRIVATE DIGITAL FORTRESS, IN THE HEART OF LUXEMBOURG!

- How can you offer added value to your employees while optimizing your costs?
- Are you looking for a highly secure solution that's simple and low-cost in order to digitize pay slips for your employees or your clients?
- Would you like to ensure confidential transfers of sensitive information to and from your clients as part of your role as external accountant?

The solution is SeeZam, **an innovative, private virtual safe**. As an online pioneer in the field, this service meets the increasing security needs of payroll providers, accounting firms, and HR departments for the storage and sharing of confidential documents.

AN INFINITE NUMBER OF POSSIBLE USES FOR HR ACTIVITIES

Human Resources department: highly-secure digitization of pay slips, employee performance reviews, documents about employer-provided insurance for employees...

Payroll providers: Highly confidential exchanges with clients, highly secure transfers of e-payslips directly to the clients' employees...

Accounting firms: accounting statements, audit reports, confidential information sharing...

FUNCTIONALITIES FOR YOUR BUSINESS

- **Private space** enabling any type of IT format to be deposited and protected.
- **Maximum security and impregnability** thanks to strong authentication, military-grade encryption and the guarantee that as your service provider, we cannot access the information in your safe.
- **Safe and easy communication** for confidential exchanges between HR departments/payroll providers and employees.
- **Tailored to your needs** (partial or total management, your branding, Intranet/Extranet integration, etc.).
- **Automation:** our automated features make it simple to distribute sensitive documents, with the strictest confidentiality thanks to data encryption at your operating site.

A SECURE ECOSYSTEM

6 ADVANTAGES OF SEEZAM

An ultra-secure digital fortress

SeeZam offers the highest level of security and confidentiality for all transfers of confidential information between you and your clients or employees.

Fast return on investment

Control your costs by setting a fixed, clear and foreseeable budget for SeeZam solutions' "pay as you use" model. The cost of sending out a payslip via SeeZam is lower than sending a paper slip.

Anywhere, anytime

Your client/employee can access his/her virtual safe at any time, anywhere in the world on any device with an Internet connection.

Innovate and draw attention to your company

Offer high added value to your employees, who can also use SeeZam for personal reasons. Increase the loyalty of your current clients, and attract new ones by offering them this innovative platform to exchange confidential information with you. A real competitive edge!

Simple and ergonomic

You'll fall in love with SeeZam's highly intuitive interface and with how easily it can be integrated with your company.

Reduce your environmental footprint

SeeZam makes it easy to digitize confidential documents intended for your employees/clients, thus supporting a sustainable environmental policy.

A UNIQUE SOLUTION

- This solution can be integrated and customized as a function of your specific needs as a payroll provider, accountant or HR department.
- Developed by security experts.
- 100% security and confidentiality for data transmission and exchange.
- An easy, user-friendly interface that also takes the needs of end users into account.

Are you ready to transfer your e-documents confidentially and offer an unmatched edge to your employees and your clients ?
